Experience

Reliability & Production Engineer September 2026 – Present
Morgan Stanley via FDM Group *Salt Lake City, UT*

- Support production systems and servers for a global team responsible for all US tax-related technology, ensuring high availability and reliability of mission-critical financial infrastructure
- Perform root cause analysis on production incidents, investigating system failures across distributed environments and documenting findings to prevent recurrence
- Respond to live production issues, triaging and resolving incidents under time pressure to minimize impact on global operations
- Develop automation solutions to eliminate repetitive manual tasks, improving operational efficiency and reducing toil for end users and engineering teams

Youth Camp Counselor Lead and Sailing Instructor April 2023 – August 2026
Mission Bay Aquatic Center *San Diego, CA*

- Led a youth camp through safe, fun, and educational water sport activities; managed safety-critical on-water operations and coordinated staff as lead instructor and team supervisor
- Taught sailing to a wide variety of age groups and experience levels, developing the ability to communicate complex technical concepts clearly and adapt instruction to different learning styles

Boy Scouts of America | Eagle Scout June 2011 – June 2022
Scouts BSA *Kenmore, WA*

- Earned Eagle Scout rank after over 10 years in the program; served as Senior Patrol Leader for 6 months, organizing weekly troop meetings and developing strong foundations in ethics, leadership, and teamwork

Projects

Android App - Volume By Speed | Java

- Over 1,000 downloads on Android devices and a 4.2-star rating on the Google Play Store
- App dynamically adjusts device volume relative to speed, replicating automotive road noise compensation technology and making it accessible to everyday users
- Most recent update increased downloads by 34%, grew ad revenue by 58%, and reduced crashes by 96%

Personal Portfolio Website - zerofour.tech | React, PHP, MySQL

- Developed a personal website using React with modular, reusable components and custom styling; deployed and self-managed on a server via cPanel including DNS configuration
- Administered a shared hosting environment via cPanel including SSL/TLS certificate provisioning, DNS configuration, custom email account setup, and MySQL database management for message storage

Education

San Diego State University San Diego, CA
Bachelor of Science in Computer Science | GPA 3.56 *December 2025*

Technical Skills

Concepts: UNIX Systems Administration, AWS, Debugging/Troubleshooting, Computer Architecture, Data Structures and Algorithms, Artificial Intelligence, Neural Networks, Machine Learning, Advanced Programming Languages
Languages: Python, C/C++, Java, JavaScript, SQL, MIPS Assembly
Developer Tools: React, AWS, Git
Skills: Leadership, Team Work, Public Speaking, Teaching
